

Achieving APMG Change Management Practitioner Certification - 5 Days

Course 288 Overview

- You Will Learn How To**
- Prepare for and take the APMG Change Management Foundation and Practitioner Exams
 - Improve your exam-taking techniques with Change Management sample questions and practice exams
 - Profile the behavior individuals, teams and organizations exhibit during change
 - Enhance dynamics between individuals and teams for high performance
 - Critique an organization's readiness for change by applying proven techniques and approaches
 - Assess leadership styles and their impact on change
- Course Benefits** This course prepares you for the APMG Change Management Foundation Exam, given on Day 4, and Practitioner Exam, given on Day 5. The APMG Change Management Certification recognizes knowledge and experience in dealing with the theories of how change impacts, and is affected by, individuals, teams, organizations and leaders of change initiatives. This course also provides the skills to effectively implement change in your organization and combat the potential downsides of change.
- Who Should Attend** Those wishing to achieve Change Management Practitioner Certification. Previous change management experience is recommended but not required.
- Workshop Course** Under the guidance of a Change Management accredited trainer, you complete workshops and practice tests, and then take the Foundation and Practitioner exams in class. Workshops include:
- Taking the Change Management Foundation and Practitioner Certification exams
 - Daily exam practice and review sessions
 - Designing a practical framework for positive engagement with organizational change
 - Identifying leadership and motivational factors for successful change
 - Creating your good practice model
 - Developing an integrated strategy designed to reduce resistance to change
