

## SANDBOX™ OVERVIEW

You have been given access to a FREE after-course attendee benefit in 'My Learning Tree':  
**Sandbox to practice hands-on exercises.**

**NOTE:** A Sandbox provides a lightweight desktop environment to safely run applications in isolation and will be available for you to access up to 90 days after your course has ended. It will refresh every 24 hours back to its original state and any saved work will be lost.

Once you have launched the Sandbox, you will have instant access to your hands-on exercises and be able to:

- Refresh what you've learned
- Practice your newly gained skills
- Master your abilities

### Technical US and CN Support

If you have any difficulties with your Sandbox, please contact our technical support at:  
**1-877-653-8733**, [anyware@learningtree.com](mailto:anyware@learningtree.com), or press Chat With Us found in your My Learning Tree Profile — Monday-Friday from 7:30 am- 5 pm Eastern Time.

### UK Technical Support

**+44 8081 722 404**, [ukanyware@learningtree.com](mailto:ukanyware@learningtree.com) or press Chat With Us found in your My Learning Tree Profile — Monday-Friday from 8:30 am-5 pm British Time.

# GETTING STARTED

## STEP 1:

You can verify how many days you have left with your sandbox in the top right corner.

**NOTE:** If you are interested in extending your Sandbox benefits, please contact us at [anyware@learningtree.com](mailto:anyware@learningtree.com).

## STEP 2:

To verify if your connection can connect to the Sandbox, please press Validate. Select your Region and click 'Check now

**NOTE:** If any of your results have failed, please contact us by the methods listed above and we can work with you directly.

#### Connectivity Checker

The Connectivity Checker will verify that you meet the browser and minimum connection speed requirements needed to access virtual machines using the client. For more information, see the [Connectivity Checker documentation](#).

This connectivity check for US-East-2 is complete. See the results below. [Test another region](#)

|                   |                                              |
|-------------------|----------------------------------------------|
| Supported Browser | Passed                                       |

### STEP 3:

To access your VM, please press the Launch button.

Please wait while your sandbox is being deployed and initialized. This may take several minutes.

LAUNCH

VALIDATE

Please wait while your sandbox is being deployed and initialized. This may take several minutes.

### STEP 4:

Please note the provided Username and Password. This may need to be used in your environment. Then press the Access Sandbox option.

Username: user  
Password: pw

**Note:** All Computing Sandbox environments are automatically deleted 24 hours after deployment.

ACCESS SANDBOX

**NOTE:** You may access the VM at any time within 24 hours. If you press Launch again you will be reconnected to the already-started session. **After 24 hours you will be presented with a new session and all previous work will be lost.**

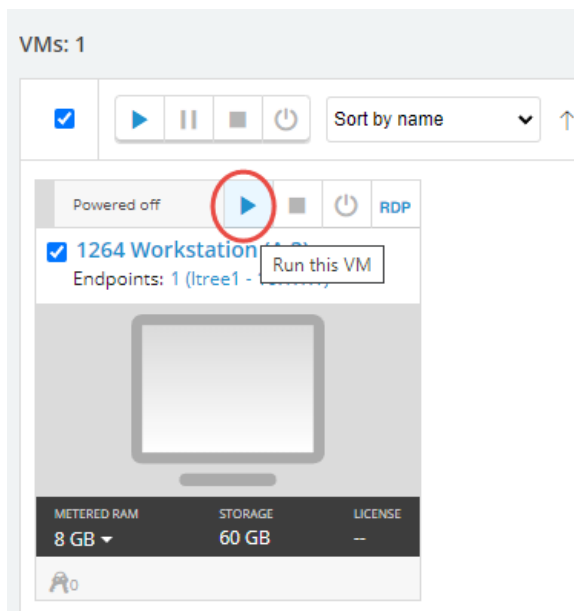

### STEP 5:

#### Option A:

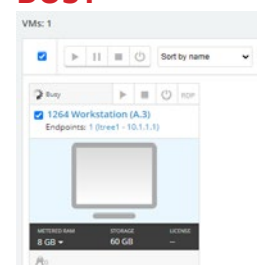

Click on the **Run icon** to start the VM. Once started please press the computer icon to access the VM

**NOTE:** You will see the Busy indicator while the system is configuring your virtual classroom.

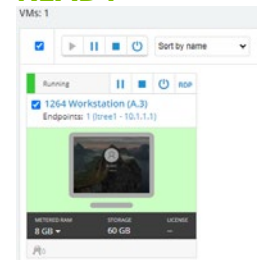

It may take a minute or two to boot up your PC. When your computer is ready, you will see the Running screen.

#### BUSY

#### READY

## Option B:

Alternatively, you can connect to your machine via RDP. Press the RDP option once the machine is running.

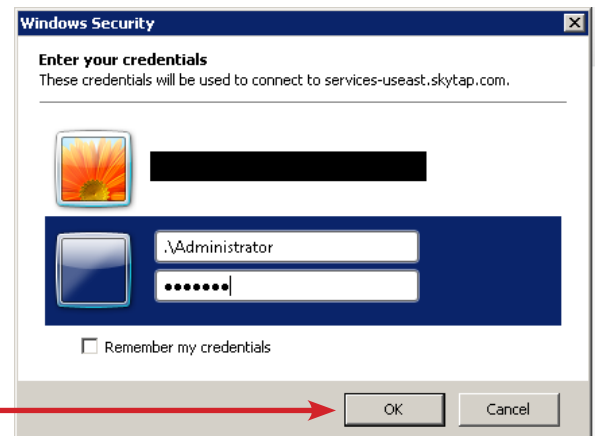

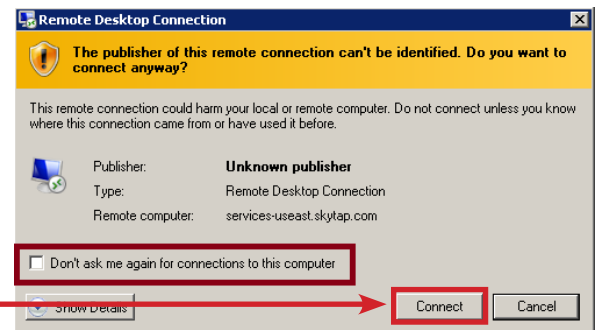

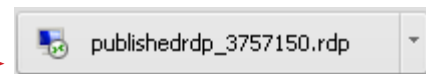

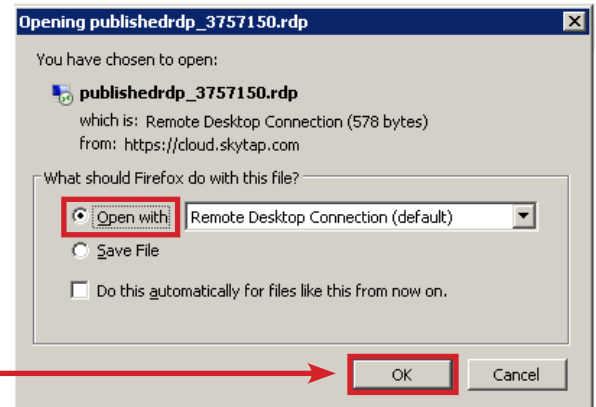

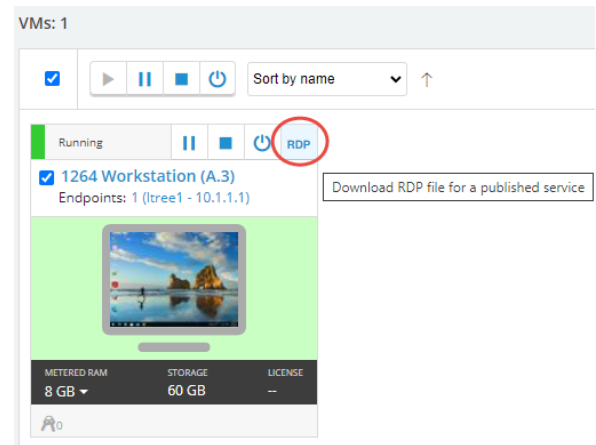

You will then be prompted for a choice on how to handle the RDP file. Depending on your browser, you will do the following:

**A.** For **Firefox**, select “Open with” and ensure “Remote Desktop Connection (default)” and click the “OK” button

**B.** For **Chrome**, click on the “published...” button that appears at the bottom of the browser.

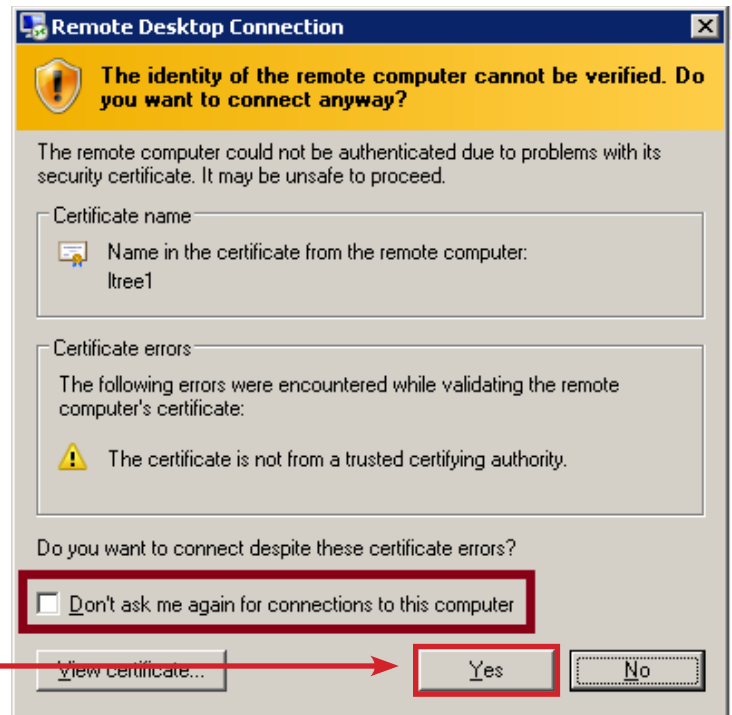

You will be prompted with a security warning about the computer’s publisher. You may optionally click the checkbox that states “Don’t ask me again...”, then click on “Connect” to log on:

Next, you will be prompted for credentials for the VM. Click on “Use another account” and consult the Exercise Manual for this information and click “OK”:

## FINAL STEP:

Finally, you will be prompted with another security warning about the computer's certificate. You may again optionally click the checkbox that states "Don't ask me again...", then click on "Yes" to access your VM:

## We hope you find the Sandbox helpful in continuing your education after your course!
